SUMMARY OF CHANGES

The following have been added by full text:

W913FT-11-T-0064
Questions and Answers 1
SMS Software

1) Question: The implication in the RFP is that the SMS should reside (run) on 10 different laptops. FAA, EASA, IATA, and ICAO guidance all state that the SMS needs to be a centralized information base with access from appropriate personnel. How do you plan to meet the guidance of a centralized view of safety data when the application runs on 10 different machines?

   Response: The software will reside on all 10 computers. However, COLAR will designate one workstation to be a centralized information base.

2) Question: Under Exhibit 1-6 you show examples from "Trend SMS" which is a commercial SMS system. Are you trying to duplicate that or would a more comprehensive SMS offering be accepted?

   Response: COLAR needs to duplicate what is shown in the examples.
